# Italian Trade Agency - ITA

TRADE AND INVESTMENT  
OPEN DOORS TO A WORLD  
OF OPPORTUNITIES

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses. Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

## FIND YOUR ITALIAN PARTNER

ITA - Italian Trade Agency supports the business development of Italian companies abroad, increases business opportunities, improves the image of 'Made in Italy', promotes industrial collaboration and foreign investment in Italy.

Find your Italian partner is a business directory with virtual showcases of Made in Italy companies.

We offer you an overview of Italian businesses, including company profiles, products images and details, website, business proposals and contact information.

Foreign companies or agent interested in Italian products or looking for partnership with Italian companies, can access the database with the profiles, searchable by sector or product, and find a business partner.

**Contact** - Andrea Passanisi

**BRAGA MORO** - (Sistemi Di Energia) is a global leader in power systems design, energy systems integration and bespoke leading edge product design and innovation. Our patented Energy Management Platform enables partners to differentiate and create new paths to market. We are growing quickly and have an expanding list of top-tier customers in many sectors and across multiple countries. With our in house software, imbedded firmware, mechanical and thermal design capability, alongside our power systems and power electronics capability, we are able to realize complete product designs and bring them to market in short timescales. BRAGA MORO brings performance and simplicity to a complex environment.

**Products:**

Power, batteries telecommunications, IT technologies, Modular power storage systems, uninterruptible power supply units, Power systems (DC/DC-AC/DC-DC/AC) with remote monitoring and sensing, and secure communications that are relevant for mission-critical power systems across a range of sectors and industries, supported by a broad IP portfolio.

**TRUNKINGS AND BOXES SOLUTIONS TO DRIVE YOUR ENERGY**

**CANALPLAST** is, since more than 60 years, a leading manufacturer of electrical installation material. The company is ISO 9001:2015 certified and RoHS-compliant, while trunkings have UL, CSA, CE, IMQ, UKCA and GOST approvals among others. The company works with experience and dedication, offering high-quality solutions, also through the support of its internal laboratory. CANALPLAST exports to over 70 Countries in the world, including the Gulf area.

**Products:**

wire ducts, halogen free wire ducts, lift trunkings, din rails, air conditioning trunkings, supports for air conditioning units, minitrunkings, installation trunkings, "SYS45", flush junction boxes, junction boxes for wall mounting, flush and wall distribution boards, fittings, fastenings.

**CELME** is an Italian company designing and producing oil-insulated electrical transformers since 1964. Bespoke manufacturing is our core business. With a production range reaching 63MVA and 145KV insulation class, thousands of our transformers are installed in more than 70 countries. Our solutions comply with the most stringent technical specifications and precise certification such as UL, ANSI NEMA, IEEE, CSA, UL, ATEX, IECEx, RETIE, NAVAL REGULATIONS, etc. We are serving three main sectors:

- Oil and Gas: Upstream, Midstream and Downstream, safe and hazardous area;
- Industrial and Power Conversion: MultiPulse and STATCOM transformers for specific working cycle and heavy loads;
- Renewable: large utility scale, PV systems and for BESS (Battery Energy Storage System), with integrated solutions in skids and containers.

CELME is ISO9001, ISO140001 certified company.

**Products:**

MV Power transformers / Hermetically sealed / Breathing type / Special units for heavy environment / Power stations.

10,5 MVA 22/4x1,85kV design to work with a 24 pulse converter

5,5 MVA 30/2x0,655kV hermetically sealed with LV bushings mounted on opposite sides of the tank bottom

**Contact** - Emanuela Cesareo

In more than 50 years of company history, **ELCA** expanded into one of Italian leading manufacturers of single and three phase transformers, autotransformers and chokes. Production focuses on dry type and low voltage transformers from 20VA to 1MVA. ELCA not only offers an extensive standard portfolio available in stock, but most of all concentrates on customized items on clients' requests. All products are manufactured in-house and 100% tested in our laboratories. To keep this excellence and quality recognized globally, ELCA has obtained several certifications and approvals, including ISO 9001:2015, UL/CSA homologation for Industrial Control Transformers, UL/CSA Homologated Insulation System, SASO CoC specific for Saudi Arabia. Thanks to high flexibility and technological expertise, ELCA successfully supplies every industry, such as automation, packaging, elevator, photovoltaic and lighting.

**Products:** low voltage and dry type / single and three phase / control, safety, isolating, special transformers, autotransformers and chokes, protection enclosures.

Elcon Megarad designs, manufactures, and supplies LV and MV power cable accessories of different technologies, as e.g. heat-shrinkable, cold-shrinkable, pre-molded, resin and tape based solutions.

Elcon Megarad manufactures and supplies components for applications on LV and MV power cables, as e.g. heat-shrinkable sleeves and molded parts, mastics, tapes, resins, cold-shrink tubes and components.

**ELCON MEGARAD** is the Italian company that designs, produces, tests and markets power cable accessories and components for electrical networks worldwide. Its Research and Development department is ceaselessly active in developing innovative materials and technologies. Its laboratories for materials characterization and high voltage testing support the design of a comprehensive range of joints and terminations for all types of cables on the market, according to CENELEC, IEC, IEEE, and ASTM standards. Elcon Megarad is certified ISO 9001, ISO 14001, ISO 45001 and ISO 14067.

#### Products:

heat shrinkable joints and terminations, cold shrinkable joints and terminations, resin joints and terminations, cable connectors and porcelain terminations, joints and terminations for special applications, as e.g. renewable energies and wind farms.

**ESSEX ENERGY**, Essex Energy, and its parent company Superior Essex, is the leading, global provider of magnet wire that is used by most major original equipment manufacturers (OEMs) and leaders in the energy, automotive, industrial, commercial, and residential sectors. We have facilities on three continents and operate our business to act globally and serve locally. Our Essex Energy facility is central to most of Europe in Quattordio, Italy and for over 50 years it has allowed for local manufacturing and eased distribution of continuously transposed conductor (CTC), helping to make Essex Energy a leader in the industry. We have also recently increased output, helping to ensure market stability. CTC is the product of choice for large power transformers where multiple conductors are assembled together and transposed. Essex Energy offers self-bonding configurations with standard or B-Stage epoxy for this use case. We can supply copper hardened to ease winding and a full range of wrapping materials. We also offer a wide range of products with different enamels, and wrap materials with temperature ratings to match your applications.

#### Products:

Continuously transposed conductor and specialty CTC, Flat wrapped wire, Flat enamelled wire, Premium flat insulated wire.

Continuously Transposed Conductor

Flat Conductors

KME MICO® Mineral Insulated Cables full range

KME copper sheets and plates

WITH ITS 8 PRODUCTION PLANTS IN GERMANY, FRANCE, ITALY AND CHINA, KME IS ONE OF THE WORLD'S LARGEST MANUFACTURERS OF COPPER AND COPPER ALLOY PRODUCTS. We offer innovative product solutions tailored to the respective individual requirements of our customers from the most various industrial sectors. **KME** is mainly focused on rolled products with a complete product range, including plating or surface treatments and has a worldwide sales network. The central headquarter of KME is in Osnabrück. The company, which is run by the IntekGroup Spa, has a European management. KME ITALY produces Mico® mineral insulated copper sheathed cable, the most performant fire resistant cable for fire detection and emergency systems. Fire resistance performances lead this cable inside specifications in Oil&Gas plants, new buildings for power and signal distribution.

### Products:

MICO® mineral insulated cable - light duty cables (300/500 V) for signal, MICO® mineral insulated cable - twisted cables (300/500 V) for fire alarm and bus system, MICO® mineral insulated cable - heavy duty cables (450/750 V) for power, accessories for mineral insulated cable - seals, industrial and Ex glands, fixing systems and tools, brass and copper junction boxes.
