Italian Trade Agency - ITA

TRADE AND INVESTMENT

OPEN DOORS TO A WORLD OF OPPORTUNITIES

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses. Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

FIND YOUR ITALIAN PARTNER

ITA - Italian Trade Agency supports the business development of Italian companies abroad, increases business opportunities, improves the image of 'Made in Italy', promotes industrial collaboration and foreign investment in Italy.

Find your Italian partner is a business directory with virtual showcases of Made in Italy companies.

We offer you an overview of Italian businesses, including company profiles, products images and details, website, business proposals and contact information.

Foreign companies or agent interested in Italian products or looking for partnership with Italian companies, can access the database with the profiles, searchable by sector or product, and find a business partner.

SPEAKING FOR THE ITALIAN ELECTRICAL ENGINEERING AND ELECTRONIC INDUSTRY

Federazione ANIE, member of Confindustria, represents the Electrical Engineering and Electronic companies operating in Italy.

With over 1,300 member companies, the ANIE system supplies technologies for public and private infrastructures in strategic markets such as energy, transport, industry and building.

ANIE INDUSTRY FIGURES FOR 2021

76 Billion Euros of total turnover

44% Share of exports in total turnover for Electrical Engineering and Electronic Technologies

500,000 Employees

5% Intra-mural R&D expenditure on total turnover

ADEL SYSTEM S.r.l.

Founded in 1991, **ADEL SYSTEM** develops and manufactures industrial linear and switch-mode power supply units and it is recognized as one of the world's leading manufacturer of industrial Power Supplies, DC-UPS and intelligent Battery Chargers. With its experience and more than 250 models produced for different applications, today the company offers a range of power supply units designed to meet the requirements of all applications in the field of industrial automation.

Products:

industrial power supply, DC-UPS, battery charger, battery bank, DC/DC converter.

ATV is the new filter and filter-fans resolve a wide range of indoor and outdoor applications applications.

AVE is the range of vertical mount air conditioners developed by Alfa Electric for the cooling needs of outdoor electric enclosures.

ALFA ELECTRIC was founded in 1993 in Brianza, cradle of the economy of Lombardy and Italy, as a division of Alfa Plastic, a company specialized in injection-moulding. Over two generations, the owning family and their skilled work force develop a solid know-how that enables a continue Company growth and the fulfilment of the requirements coming from a varied, international and demanding Clientele.

The quality of Alfa Electric products are reliable and proven: each of them is tested individually. Excellence, timeliness and punctuality of delivery are key words and facts. All this makes Alfa Electric a dynamic, efficient, effective and competitive, to go beyond the national market and extend toward new horizons.

Products:

Air Conditioning: Compact air conditioners for indoors and outdoors: more efficient and less vibrations.

Ventilation: Filter and Filter-fan unites for thermal management of electrical enclosures

Heating: Wide range of models, ideals for indoor places with high levels of humidity and condensation.

Control: Temperature and humidity regulation devices with electric indicators.

Lighting: Slim LEDs and lamps, versatile and with motion sensors.

Accessories: We also provide mounts, electrical and protective accessories for all of your devices.

BRAGA MORO SISTEMI DI ENERGIA S.r.l.
Via S. Gregorio, 12 - 20124 Milano (MI) - Italy
sales@bragamoro.com - www.bragamoro.com
Contact - Andrea Passanisi

BRAGA MORO - (Sistemi Di Energia) is a global leader in power systems design, energy systems integration and bespoke leading edge product design and innovation. Our patented Energy Management Platform enables partners to differentiate and create new paths to market. We are growing quickly and have an expanding list of top-tier customers in many sectors and across multiple countries. With our in house software, imbedded firmware, mechanical and thermal design capability, alongside our power systems and power electronics capability, we are able to realize complete product designs and bring them to market in short timescales. BRAGA MORO brings performance and simplicity to a complex environment.

Products:

Power, batteries telecommunications, IT technologies, Modular power storage systems, uninterruptible power supply units, Power systems (DC/DC-AC/DC-DC/AC) with remote monitoring and sensing, and secure communications that are relevant for mission-critical power systems across a range of sectors and industries, supported by a broad IP portfolio.

Components for industrial automation

DC Disconnect Switches for PV applications

BREMAS is specialist in the design, manufacturing and marketing of electromechanical components for the industrial automation and the solar industry, with a complete range of cam switches, AC and DC disconnect switches, limit switches, safety switches and relay sockets, able to satisfy the most different fields of application.

With over 50 years of experience, Bremas design and build extremely reliable and efficient products: the company is managed in full accordance with UNI EN ISO 9001, ISO 14001 and all the products are verified in the laboratory under the most stringent standards to guarantee performance, durability, and safety.

Products:

DC Disconnect Switches for solar applications: from 12 up to 50 Amperes, from 600 to 1500 VDC

Cam Switches: a wide range of diagrams from 12 up to 630 Amperes

AC Disconnect Switches: from 20 up to 1600 Amperes

Limit and Safety Switches: a wide range of actuators suitable for multiple applications.

TRUNKINGS AND BOXES SOLUTIONS TO DRIVE YOUR ENERGY

CANALPLAST is, since more than 70 years, a leading manufacturer of electrical installation material. The company is ISO 9001:2015 certified and RoHS-compliant, while trunkings have UL, CSA, CE, IMQ, UKCA and GOST approvals among others. The company works with experience and dedication, offering high-quality solutions, also through the support of its internal laboratory. CANALPLAST exports to over 70 Countries in the world, including the Gulf area.

Products:

wire ducts, halogen free wire ducts, lift trunkings, din rails, air conditioning trunkings, minitrunkings, installation trunkings, "SYS45", flush junction boxes, junction boxes for wall mounting, flush and wall distribution boards, fittings fastenings.

ESSEX ENERGY and his sister company Essex Furukawa, is the leading global provider of Magnet Wire that is used by most major original equipment manufacturers (OEMs) and leaders in the Energy, Automotive, Industrial, Commercial and Residential sectors. We have facilities on three continents and operate our business to act globally and serve locally. Our Essex Energy facility in Quattordio, Italy, is central to most of locations in Europe and for over 50 years it has allowed for local manufacturing continuously transposed conductor (CTC), helping to make Essex Energy a leader in the industry. CTC is the product of choice for large power transformers where multiple conductors are assembled together and transposed. We have recently increased volumes output and applications served, helping to ensure market growth. Awarded winner for the largest ever tender for extreme TWIN CTC applications (ULTRANET Project). Essex Energy offers CTC for self-bonding applications and with enamels thickness from standard range to extreme 60 microns. Premium supplier for copper keystones for HVDC submarine power cable (VIKING Project).

Products:

Continuously transposed conductor and specialty CTC, Flat wrapped wire, Flat enamelled wire, Premium flat insulated wire.

FANTON is an Italian producer of electrical material. Our products, designed and produced in Italy, are suitable both for the industrial field - for installation and for construction sites - and for domestic use - multisoquets, plugs, sockets, cable reels. Since 1997 Fanton has been certified according to the international standard ISO9001. Our products are tested at every stage of production and before being placed on the market, guaranteeing quality and reliability to the final consumer.

Products:

Industrial use: Solar connectors; Industrial plugs; Industrial sockets; Switched interlocked sockets; Cablereels for industrial use; Distribution boards.

Domestic use: Multisoquets; Domestic plugs; Domestic sockets; Adaptors; Cablereels; Light fixtures; USB chargers.

Made in Italy solar connectors, TÜV certified, IP68 protection degree, 1500V, made of special NORYL material.

Distribution board with support included in the shell, sturdy, easy to fix, with internal compartment for adaptors and screwdrivers.

ICC has established itself as an international group known in more than 75 countries for the quality of its service, with plants in Italy and abroad and over 600 employees.

In the perspective of continuous improvement ICC daily invests in efficiency and in the optimization of its production processes.

Our strengths: investments in research and development, cutting edge technology, organizational flexibility and constant attention to the community and the environment.

Products:

The wide range of ICC allows a diversification of applications in sectors such as automotive, electric motors, household appliances, lighting, elevators, welding, renewable sources, power distribution, railway, industrial automation and many others.

ITALWEBER S.p.A.

Contact - Stefano Vescovini, Silvia Pellegrini

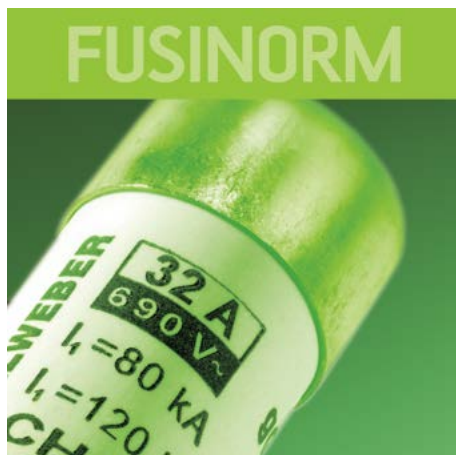

ITALWEBER is an Italian producer of high quality components for electrical protection since 1960. Our production is focused on Fuses and Fuse Holders for Low Voltage, Medium Voltage and Photovoltaic applications, according to European and international standards, Cabinets and components for Photovoltaic plants, Motor Protectors, Insulators, Flexible Copper Bars, Thermoplastic Enclosures, Low Voltage and Medium voltage Transformers with approvals, Surge protective devices, Cam Switches and Control Switches.

Products:

fuses and fuse holders, low voltage and medium voltage transformers, cams switches and control switches, protection components for photovoltaic application.

LV and MV Transformers

LV and MV Fuses and Fuse holders

KME MICO™ Mineral Insulated Cables full range

KME copper sheets and plates

KME offers innovative product solutions tailored to the respective individual requirements of our customers from the most various industrial sectors. KME is mainly focused on rolled products with a complete product range, including plating or surface treatments and has a worldwide sales network. The company, which is run by the KME Group S.p.A., has a European management.

KME Italy produces MICO™ mineral insulated copper-sheathed cable, the most performant fire resistant cable for fire detection and emergency systems. Fire resistance performances lead this cable inside specifications in Oil&Gas plants, new buildings for power and signal distribution.

Products:

MICO™ mineral insulated cable - light duty cables (300/500 V) for signal, MICO™ mineral insulated cable - twisted cables (300/500 V) for fire alarm and bus system, MICO™ mineral insulated cable - heavy-duty cables (450/750 V) for power, accessories for mineral insulated cable - seals, industrial and Ex glands, fixing systems and tools and junction boxes (brass line).

Electrical Substations and TE cabins

Three-phase Power Transformers in epoxy resin

LEF was founded in Florence in 1959, today it is a Group of six Companies. The Group is a leader in the Energy Transformation market and is among the most qualified companies for the development of new technologies aimed at improving the quality of services in the Electricity Distribution sector, in Rail Transport Infrastructures, in the Smart City sector and in Public and Private Lighting. The Group supplies innovative, eco-friendly products and systems with high energy efficiency.

Products:

INDUSTRIAL PRODUCTS: Medium Voltage & Low Voltage

LIGHTING PRODUCTS: SMART CITY & IoT

RAILWAY PRODUCTS: Products and Systems for Smart Station and for the Railway Lines

PIS: Information systems for the public in railway stations and airports

MARINE INDUSTRY: Smart Services and Smart Applications for FREIGHT SHIP/PASSENGERS SHIP, HARBOUR DOCK, GOODS SORTING SITE, FREIGHT VILLAGE

PALAZZOLI GROUP, which belongs to PALAZZOLI S.p.A. whose headquarters are located in Brescia (Italy), is one of the major international players in the production of electrical and lighting systems. PALAZZOLI MIDDLE EAST (PME) is the commercial company, owned by Palazzoli Group, representing the product brands Palazzoli, Lewden, and Stral and handling operations for Middle East countries such as UAE, Saudi Arabia, Kuwait, Qatar, Bahrain, Oman, Jordan, Lebanon, and Iraq. PME is promoting and marketing the product brands in the business of electrical systems and lighting equipment for applications such as Industrial, ATEX, Infrastructure and Marine.

Products:

Industrial plugs and sockets, Interlocked socket-outlets, Isolators switches, Boards and boxes, Pre-wired boards, Lighting fixtures, ATEX solutions.

TAIS range

Increased safety interlocked socket-outlets, distribution boards, boxes and devices in thermosetting GRP suitable for environments with presence of oils, greases, chemical agents and high temperatures, ensuring an average life 10 times longer than those made of thermoplastic material.

FIT 55

Maximum efficiency with the smart roadway lighting. Intelligent, adaptive, efficient and sturdy - these are the features for smart lighting in the cities of the future, providing light only where and when it is needed.

STEAB is present on the market since 1970 developing and producing, in house, IP68 enclosures and connectors based on silicon GEL. At MEE Steab presents the product family named Paguro®.

Paguro® is an important innovation in the IP68 enclosures and junction boxes world. Paguro's main characteristics are:

- › plastic shells pre-filled in factory with silicon gel, no on-site gel handling
- › reliable and easy-to-use
- › full range product available (Micro, Mini, Basic and Maxi)
- › certified and 100% made in Italy products

Products:

IP68 connectors based on silicon GEL and accessories in Insulating Material for Lighting, Electronic and Electro-Mechanical Industries

PVC Flexible Spiral Conduits

Double layer, PP Halogen Free Corrugated Conduits

Since 1980, **TUBIFOR** has been manufacturing insulating conduits and pipes for the electrical installation and the cable protection. Our products are covered by the most prestigious international quality marks as IMQ, VDE, NF-USE, SEV. We are one of the leading companies in this field in the Italian Market and we do export in 16 different countries in Europe, Mediterranean and Middle East areas.

Products:

Reinforced PVC Spiral Sheaths for cable protection and air conditioning systems; Polypropylene Halogen Free Corrugated conduits; PVC corrugated pipes for electrical installations; PVC Rigid Pipes; Halogen Free - Zero Smoke Rigid pipes; Accessories and Fittings; Double Wall Corrugated ducts for underground installations.

VEMER S.p.A.
 Via Camp Lonc, 16

Contact - Umberto Dozio, Martina Stach

VEMER, located in the North of Italy, is an industrial manufacturer of more than 1,000 items to meet the requirements of modern installers for civil and industrial use. Over 35 years of experience makes Vemer leader in Italy and successful in more than 40 international markets. Thanks to UNI EN ISO 9001:2001 Quality Certification System, the company assures the quality of its products and the efficiency of its staff.

Products:

climate control, time management, gas/safety, measurement/control, heat regulation, devices for switch and socket systems, insulators and busbar support.

Large offer of supports and spacers of electrically active parts and bars for panel creation. Made of polyester resin with addition of glass fibres they guarantee a long-lasting and high mechanical- electrical resistance. Available also UL-certified models.

In case of blackout this DIN-rail emergency lamp lights the electrical panel where is installed for an easy reset operation. Its rechargeable battery ensures constant illumination for more than two hours.

Digital/astronomic time switch with Bluetooth interface, programmable by smartphone using APPS available for both iOS and Android systems.
