FEDERAZIONE ANIE

Federazione ANIE is a Confindustria member representing the Electrical Engineering and Electronic companies operating in Italy.

ANIE, with over 1,200 Member Companies, represents the following industrial sectors: Power Production, Power Transmission and Power Distribution, Electrified Transports, Lifts and Escalators, Lighting, Cables, Components and Devices for Electrical Installation, Household Appliances and Catering Equipment, Electronic Components, Factory and Process Automation, Security, Fire Safety and Building Automation, Industrial Plant Engineering.

ANIE industry in figures for 2015:

AREL®

Brand **AREL®** has been active since 1965 in the production of Safety Interlocking Devices for MV/HV electrical systems. The concept of safety system includes the set of actions used to minimise the risk of damage to property or individuals. As an essential factor for MV/HV electrical installations, interlock system is designed to prevent incorrect operations that could cause injury to individuals or damage equipment. The quality of brand products AREL® has made the company a trusted partner for numerous renowned companies in the Energy, Railway and Navy sectors.

Products:

safety interlocking devices (bolt locks - key exchange boxes - door locks - electromechanical locks - key switches), camlocks and handles.

cabur

CONNECTING ENERGY
SINCE 1952

Born in 1952, leading manufacturer of terminal Blocks for electrical boards in Italy, ISO 9001 & 14001 certified, **CABUR** offers systems and solutions for the connection and distribution of energy, a wide range of switching power supplies, electronic components for electrical panels, connectors and other accessories for photovoltaic installations, as well as industrial marking systems.

Products:

terminal blocks, electronic products for electrical panels (power supply, relay, converter), industrial marking system, photovoltaic products.

**CIEB**

COSTRUZIONI ELETTROMECCANICHE

CIEB NUOVA is part of **GRUPPO CARAGLIO**, company that has been operating for forty years in the field of Medium Voltage switchboards (metal-clad and metal-enclosed) and Low Voltage switchboards (Power Center and MCC with withdrawable and fixed drawers). Construction, assembly and cabling are constantly monitored to ensure the highest standards of quality, while reliability is further guaranteed by the automation and standardization of the production procedures and equipment. Flexibility and attention to customer requirements are the strengths of the company, which combined to a continuous pursuit of quality allow us to provide personalized switchgears and tailor-made solutions for each customer.

Products:

Medium Voltage Switchgears: metal-enclosed type up to 24kV, protected type with air-insulated switch-disconnector up to 36kV, protected type with gas-insulated switch-disconnector up to 24kV.

Low Voltage Switchgears: power center up to In 6300A Icw=100ka, motor center control - removable drawers, motor center control - fixed drawers, secondary distribution switchgears, other switchgears.

COL GIOVANNI PAOLO, established in 1920 has assumed, during the years, a prestigious position in the Electrotechnical, Electromechanical and Engineering Plant fields consolidating its position in the world market, thanks to a constantly diversification. It has put in action a growth policy with the acquisition of companies in the Electronic, Environment, Automation Systems, Railways and Electromechanical fields, to offer a complete range of products and services, with elevated technological contents.

Products:

ring main unit vacuum circuit breaker, ring main unit with fuses, ring main unit extensible, three pole VCB, three pole SF6, pole mounted switch disconnector, IR3 SF6, modular enclosed switchboards, switchgears and switchboards for electrical energy, MV circuit breakers and isolating switches, electrical engines, electric protection, power electronics-uninterruptible power source (UPS), peripheral unit, equipment for plants and substations, relays, measurement transducers, switch closure, bay control and monitoring unit, electrical networks monitoring, RGDAT, SCADA system.

DOMO is a leading manufacturer of LED displays, LED lamps and signaling components and control panel for electricity production or distribution stations, Oil&Gas, refineries and any other industrial process automation, control panels. The production is 100% Made in Italy, for tighter controls of the entire process. Every day Domo develops special versions for major clients: ABB, Schneider, Siemens, Mitsubishi, Alstom, Areva, Hitachi, Snamprogetti, over 400 Italian and foreign panel builders and 100 operators of industrial automation.

Products:

LED indicators, semaphore LED indicators, LED lamps, control pushbutton line 16mm, control pushbutton line 22mm, control panels annunciator, identification systems, connection systems, mosaic tile system, discrepancy switches.

For almost 30 years **ZOTUP** has been committed to develop and produce surge protection solutions with passion. Nowadays it continues to provide products and services characterized by high quality standards.

In ZOTUP values are simple:

- **SAFETY:** ZOTUP produces products with the unique intention to protect people, their property and their work;
- **QUALITY:** only through the products quality ZOTUP accomplishes what it promises;
- **INNOVATION:** the continuous development is the lifeblood of ZOTUP.

The development generates innovation, the real answer to customer needs.

Products:

surge protective devices for low, medium and high voltage; surge protection for PV plant, Wind Turbine, Data Center and LED lighting.
