- ✓ more than 10 ports,

# Bandar Abbas the Pearl of Iran

**. Has fourteen islands in the Persian Gulf and 1,000 km of coastline.**

**. Two main trade free zone islands, Geshm and Kish with international airports.**

**. The strategic importance of the Persian Gulf further increased after World War I with the discovery of oil in the region**

**. 30% of Iran's fishery product**

- **Particular attention has been paid to Bandar Abbas as a strategic port and the government invested huge amounts of capital in the infrastructure.**
- **Bandar Abbas serves as a major shipping point, mostly for imports, and has a long history of trade.**
- **Thousands of tourists**
- **Iran Shipbuilding & Offshore Industries Complex Co (ISOICO)**

- . Biggest port is Iran**
- . More than 60 percent of import and export of Iran**
- . Very high economic level**
- . Under development and processing city**

- . Biggest port is Iran**
- . More than 60 percent of import and export of Iran**
- . Very high economic level**
- . Under development and processing city**

**. And hopefully after iran's agreement with 5+1 countries, it will be become biggest port in the middle east**

# Air Emergency

# Sea Emergency

**According to Hormozgan  
Population,  
location,  
Tourist and health tourism  
HUMS students (medicine, dentist and  
pharmacy) then Hormozgan province need a  
big teaching hospital with about 600 modern  
beds.**

**Our facilities for new hospital**  
**HUMS has so many lands which is very good**  
**location for new hospital.**

**1- One of our suggestion for new hospital is in**  
**the Shaheed Mohammadi hospital which is**  
**located in the Bandar Abbas centre. There is**  
**about 50,000 m<sup>2</sup> free land in this hospital that**  
**this belong to HUMS.**

**2- Second place is 200,000 m<sup>2</sup> which is belong**  
**to HUMS and had good view in future.**

**The Hormozagn province needs a very good and modern hospital with these conditions:**

**1-Beds: 600**

**2- Building material must be resistance to humid and warm weather**

**3- Good and modern hospital with teaching usage**

**4- Smart and well design**

**5- contain one research block which linked to this hospital**

Thank

You
